CITY OF DOVER.

IN BOARD OF ALDERMEN, }
February 7, 1866. }

ORDERED, That the Mayor's Address, the Report of the Committee on Finance, submitting the Treasurer's Account, the Receipts and Expenditures of the City, and other Reports, be prepared for publication by the City Clerk, with instructions to print eight hundred copies of the same.

JOHN B. STEVENS, JR., CITY CLERK.

Sent down.

IN COMMON COUNCIL, }
Feb. 7, 1866. }

Concurred.

J. T. S. LIBBY, CLERK.

MAYOR'S ADDRESS.

GENTLEMEN OF THE CITY COUNCIL :

In accordance with the custom of my predecessors, upon their induction to office, I desire to state briefly at this time the present condition of our Municipal affairs, and to call your attention to some matters which will probably come before you for your consideration during the year. We enter upon our duties to-day, gentlemen, under very different circumstances from those which have surrounded our predecessors for some years at least. It is not only matter of congratulation, but cause for humble and devout thanksgiving on our part in common with all our fellow citizens, that the days of civil confusion and rebellion have once more given way to a state of public tranquility and peace. That the unparalleled efforts made during the past four years for our destruction have resulted in paralysis to the parricidal arm raised for our overthrow, in the complete demonstration of the self sustaining and self perpetuating power of a government insisting on the observance of equal rights and privileges to all, and in our assuming a place in the family of nations, which, if we are true to our convictions of right, will prove as commanding as the privileges and blessings that legitimately flow from our form of government are unequalled. I am happy to state that the City has at all times during the rebellion, at all its crises, on the heel of defeat as well as in the flush of victory, furnished its full proportion of men for the nation's defence. That our patriotism has not been shown less by the effectiveness of our men in the service than by the numbers sent out, the gallant conduct and heroic death of our best young

men on the terrible fields of this unnatural strife bear witness. I trust that the memory of the fallen may be perpetuated by the speedy erection within the City of some monument worthy of their heroism.

Since the breaking out of the rebellion we have raised and sent into the Army and Navy, as appears by the Report of the Adjutant General of the State, one thousand and six men, leaving at our last enrollment but seven hundred and ninety-one men within the military age. To accomplish this it has been necessary to raise sums of money far beyond the amount of our ordinary taxes, and the City is to-day in debt about two hundred thousand dollars. Seventy thousand dollars of this sum has been funded by the issue and sale of the Bonds of the City.

Seventy thousand dollars more of the bonds of the City bearing six per cent. interest and maturing in A. D. 1884, remain unsold, leaving a floating debt of about one hundred and thirty thousand dollars to be provided for. This debt, though large and a burden greater than the exigencies of any former times have placed upon our tax payers, is, when compared with the debts of most of our towns, comparatively light. I understand that the valuation of the City last year was rising three millions six hundred thousand dollars—so that a tax of less than 6 per cent. on our valuation would discharge our liabilities and cancel our whole debt. How and when this debt, especially the unfunded portion of it, shall be paid, are questions that you are to meet and questions that in their solution will call for the exercise of sound judgment and the display of financial ability on your part. It will of course be impracticable to pay our whole indebtedness at once, though I am very far from sympathizing with that school of political economists who hold a public debt to be a public blessing. I believe that in this, as in all other things, individual and corporate interests run parallel, and I would recommend that the further expansion of our liabilities be avoided if possible, and that measures be at once taken providing for a reduction of

our present debt at the earliest *moment practicable*. It must be borne in mind that with the most rigid economy that can be practiced the taxes of the year to come will necessarily be large. It is unreasonable to suppose that the current expenses of the City can be met by so small an appropriation as sufficed before the depreciation of our currency, to say nothing of the additional amount of money that we shall be obliged to raise to pay the interest on our debt and gradually extinguish the principal. In order to relieve the tax payers as far as possible from this extraordinary burden, it will be your pleasure, I have no doubt, to keep the current expenses down to the lowest point consistent with due regard to the honor and safety of our public interests.

The condition of our streets and highways is in the main excellent, and, so far as I am informed, no unusual appropriation will be required for their repair the coming year. At the September term, A. D. 1864, of the Supreme Judicial Court for this County, the highway leading to Rollinsford, at the point where it is intersected by the Boston and Maine Railroad, was indicted for want of repairs and obstructions placed therein. There being no question but that the Railroad was responsible for the grievance complained of, the City Solicitor, immediately upon receiving legal notice of the finding of the Indictment, notified the Counsel for the Railroad that they could, if they chose, defend in the name of the City, which they have since done, and the State having prevailed in trial by jury the case is now before the whole Court for decision in March next, which it is hoped will fully settle and define the relative liabilities of the City and the Railroad toward the public at the point in the highway complained of, as well as secure the early construction of such a bridge over our highway by the Railroad corporation, as the safety and convenience of the travelling public requires.

No site for a city could well be selected, better adapted for cheap and easy drainage than ours, yet here, as elsewhere, this matter of the construction of sewers has been

strangely undervalued and poorly understood, as bearing on the health and comfort of the people, and I understand that a due regard to the wants of individual and the public health in some of our more densely populated streets will probably require, at an early day, some outlay for sewers. Whatever work of this kind is attempted should be done with reference to the wants of all coming time, and each piece of work should be so constructed as in no sense to be regarded as an independent and isolated work, but as simply a section of a great net work of drains to be eventually constructed on each side of the Cochecho River for the removal of the refuse matter of the City.

The scrupulous regard which it is your bounden duty to exercise for the public health will, I doubt not, find you vigilant in adopting all sanitary measures necessary to shield us, as far as may be, from the ravages of the pestilence which it is thought threatens us from foreign shores as well as from the ordinary diseases of our climate.

The Police force for the year past has consisted of the City Marshal, his Assistant and four Policemen, who have been prompt and efficient in the performance of the delicate and sometimes hazardous duties of their office. It appears by the report of the Marshal that 296 arrests have been made during the year, and the amount of fines and costs imposed by the Police Court has been \$567,55.

The Poor of the City have the past year been cared for by Mr. and Mrs. Caswell, who have now had charge of the Alms-house eight years, and whose services always highly commended were never more worthy of praise than at the present time.

A decided change in the management of our Fire Department has been made the past year by substituting Steam Fire Engines in place of hand Engines, in part. Two Steamers have been purchased and a substantial Engine House for their accommodation erected on Orchard street, at a cost, including all incidental expenses, of about \$15,000. The relative superiority of Steamers over hand Engines is

conceded by all who have dispassionately considered the subject, and the comparatively small force required to man them will, it is believed, essentially reduce the expenses of our Fire Department at the same time that our ability to check and extinguish fires will be sensibly increased.

I am decidedly of the opinion, gentlemen, from an experience of five years as an examiner in a portion of our public schools, that while many of our schools are models of excellence in themselves, our school system is radically defective and insufficient, that it operates unequally in the distribution of its benefits, discriminating harshly and oppressively against the children of men of moderate means and affording no class the advantages that a well regulated system should. Our schools are managed under three distinct systems, each independent of the other. School Districts Nos. 1 and 2, covering substantially the densely populated portion of the City, are operated under the Somersworth act, so called. No. 1 has a system of imperfectly graded primary and secondary schools, with one school of a higher grade which is made to do duty both as a Grammar and High School as best it may. No. 2 has a thoroughly graded system of schools culminating in a High School, while the other Districts are continuing along under the old district system of a generation ago. You will perceive from this statement that the prospect of the child for an education, whose parents are of limited pecuniary means, is dim or bright according to the location his father's house may chance to occupy. If he resides in District No. 2, he may be better educated than he can be in most of our Academies. If in No. 1, he will approximate to that standard, but if his lot happens to fall in the other Districts, then he must commence life for himself with the merest elements of an education. This ought not to be. Civilly considered, the children of the rich and the poor are equal, entitled to equal rights and privileges. Such is the theory of our Government. Upon the practical observation of it, we stake our National life. In my estimation the whole City

should be thrown into one District, having a complete system of thoroughly graded Primary, Secondary and Grammar Schools, affording, as they would, an abundance of material for one High School, with a standard of admission so high that it would be excelled by no similar school in the State.

Then no insuperable obstacle would stand in the way of every man's child receiving such an education as our interests require that the City should afford. Without dwelling further on this subject, I will suggest to you that, if my views strike you favorably, you shall make an effort to get an expression of the voters in the several Districts at their Annual Meeting in March next, on the question of a union of all our school districts with a view to sustain a High School for the whole City. Such a course would bring the subject fairly before our people, and I have no doubt the result would be favorable to the cause of education.

In entering on the discharge of our duties we are all sensible of the importance of the trust reposed in us by our fellow citizens, and I trust we shall never so far forget the dignity of our offices or of our manhood as under any circumstances to become the advocates of individual interests at the expense of the public welfare. In order to secure a prompt and efficient administration of the City Government it will be of vital importance that you act harmoniously, honestly differing, as you frequently may, as to matters of expediency, I make no question that you will always show yourselves well bred gentlemen and discreet legislators by quietly yielding your personal preferences to what, on the whole, may seem to you best to subserve the interests of the City. Having observed to act with fidelity in all things, gentlemen, I trust that at the close of the year we may be conscious that our efforts in the public behalf have been adequate to the occasion that invoked them.

E. J. LANE, CITY TREASURER.

CITY OF DOVER.

DEC. 30, 1865.

The undersigned, Committee on Finance, certify that we have examined the foregoing account of the City Treasurer, and have also compared the account with the vouchers in the hands of the City Clerk, and find the same correctly cast and properly vouched.

WM. F. ESTES,	}	COMMITTEE
W. T. PRESCOTT,		ON
DANIEL HAM,		FINANCE.
RALPH HOUGH,		

REPORT OF THE COMMITTEE ON FINANCE.

The Joint Committee on Finance, in accordance with the requirements of a City Ordinance, respectfully submit their
TENTH ANNUAL REPORT.

The total amount received into the Treasury from all sources, as per account of the City Treasurer, from Dec. 31, 1864, to Dec. 31, 1865, including cash balance of last year, was \$238,056,25, and the total amount paid therefrom during the same period, was \$223,962,89, leaving a cash balance in the Treasury, Dec. 31, 1865, of \$9,093,36.

All of which is submitted.

WM. F. ESTES, MAYOR.

Dover, Jan. 1, 1866.

EXPENDITURES.

REPORT OF THE CHIEF ENGINEER.

To His Honor the Mayor and Aldermen of the City of Dover:

GENTLEMEN :—Agreeably to the requirements of a City Ordinance, I herewith submit my annual report of the condition of the Fire Department, a list of the officers and members, the location of reservoirs, and the number of fires and alarms.

There has been purchased during the past year, two steam fire-engines, from the Amoskeag Manufacturing Co. : one first class steamer, double engine and pump, plays four streams ; and one third class steamer, single engine and pump, plays two streams ; also, 2000 ft. of leading hose, large size, 2 1-2 in. coupling, and one hose carriage that will carry 700 feet of hose, and have contracted for another of the same size.

By an order from the City Council, all of the hand engines except No. 2, have been dispensed with, and are for sale.

The Department consists of a Chief Engineer and two assistants ; Hook and Ladder Co., 40 men, Dover Steamer Co. No. 1, 17 men, Cochecho Steamer Co., 17 men, Tiger Engine Company No 2., 40 men, making 117 men.

BOARD OF ENGINEERS.

RICHARD N. ROSS, Chief Engineer,
EDMUND FREEMAN, First Assistant,
SOLOMON H. FOYE, Second Assistant.

HOOK & LADDER CO.

House on Central St. Wm. H. Hanson, Foreman ; A. J. Roberts, First Assistant ; E. M. Jones, Clerk ; John Brown, Steward ; R. R. Burnham, George Bowers, S. H. Rrownell, James Carlton, George W. Downs, J. G. Flagg, J. Fountain, S. D. Gilman, A. J. Hough, J. W. Hanson, E. E. Littlefield, I. B. Littlefield, E. B. Otis, E. Smith, Thomas Robinson, Moses D. Page, O. T. Whittier, Chas. E. Lord, Isaac Adams, J. S. Abbott, James Boston, Wm. J. Butterfield, Wm. Drew, Robert Evans, Daniel Ford, A. Glidden, L. M. Howe, M. C. Lord, Horace Littlefield, M. F. Nason, E. Mulligan, J. S. Ricker, N. Tebbets, Wm. H. Vickery, J. A. Wiggin, Jasper G. Wallace.

Hook and Ladder Carriage, 300 feet ladder, 10 hooks and poles, 9 axes, 4 forks, 7 iron bars, rope, chain signal and and torches, all in good condition.

HIGHWAY DISTRICTS,

As established by the City Council, March 20, 1865.

Resolved, I. That Highway District No. 1, be extended to the junction of Back River and Durham Roads.

II. That Highway Districts Nos. "Two and Three," be added to and included in Highway District No. "One "

III. That Highway District No. "Twenty-two" be extended to the large Elm Tree east of E. Faxon's house.

District No. 1—Shall embrace all the streets, lanes and alleys in the compact part of the City, also Locust, (formerly High,) street to its head, Arch street, Silver and Washington streets to their junction with Arch, Fourth to its junction with Tolend Road, Brick street to its junction with Grove, Franklin street to its junction with Chestnut street at the house of Capt. Porter, the Rollins Road to its junction with Fresh Creek Road, the Turnpike to Rollinsford line, Rogers street, the Gulf Road west of Cushing's Mills, Payne street to the culvert beyond Plate's hill, Mt. Pleasant to Cross Road, Cross Road to Neck Road near James Caton's house, Pleasant street to John Meserve's house and to head of Locust.

District No. 2—Shall begin at Cushing's Mills, thence to James McDuffee's Gate, the old road by Capt. James B. Guppy's to Fresh Creek Road, and Fresh Creek Road east to the Rollins Road to the Rollinsford line.

District No. 3—Shall begin on Franklin street at the house of Capt. Porter, near the corner of Chestnut street, thence to the house of Levi Sawyer on Garrison Hill, including the Fresh Creek Road, west of the Rollins Road.

District No. 4—Shall begin at the house of Levi Sawyer on Garrison hill, thence to Somersworth line and W. Moore's house ; also by E. Hurd's house to Rollinsford line.

District No. 5—Shall begin at Somersworth line near Henderson's house, thence down to Gage's hill, also by

Moses Hussey's house to the new road, and to Reynard's Brook.

District No. 6—Shall commence at Somersworth line on Blackwater Road, thence to the Rochester and Somersworth lines.

District No. 7—Shall begin at Reynard's brook south of David Sargent's house, thence by said Sargent's to Rochester line ; also the road leading by the school house to the railroad crossing and the road to Moses Farnham's.

District No. 8—Shall begin at the junction of Grove and Brick streets, thence by the house of Ezra Kimball to Indian Brook ; also the road by R. Kimball's house to the house of Mr. Fuller, thence to the railroad crossing near the Whittier bridge ; also the Upper Factory road, from the school house to the south side of the bridge.

District No. 9—Shall begin at Indian Brook near the house of Oliver S. Horn, thence by the house of Joseph W. Bennett to the railroad crossing, on the cross road and to the railroad crossing near the Alms House, and by the house of Paul Horn to the house of Moses Farnham.

District No. 10—Shall begin at the railroad crossing near the Alms House, thence by the house of Timothy H. Snell to Rochester line, the road leading to John Trickey's farm, and the cross road by the house of Horace Kimball to the railroad crossing.

District No. 11—Shall begin at Dover Point, thence to the junction of the roads near the house of the late Jeremy Roberts.

District No. 12—Shall begin at John Meserve's house, thence to the bridge below Stephen Austin's house.

District No. 13—Shall begin at the junction of the roads near the house of the late Jeremy Roberts, thence to the red School House and main road to and across the bridge below Stephen Austin's house, with all the cross roads.

District No. 14—Shall begin at Amaziah Brownell's house, thence by the house of Nicholas Varney to Nath'l Carlton's house and the Cowan Road.

District No. 15—Shall begin at the culvert at Plate's

hill, thence by Samuel Hanson's, 2d, to the old road and the Amos Burrows road.

District No. 16—Shall begin at the house of James Wentworth, thence to Spruce Lane, the David and Samuel Tuttle roads, the new road to Reynold's Bridge, and the road to Madbury line.

District No. 17—Shall begin at the head of Locust street, thence to Spruce Lane, the Mast road to Reynold's Bridge, the Drew Lane and the Spruce Lane.

District No. 18—Shall begin at the Madbury line, thence by Simon J. Torr's house to Dunn's bridge, the Mast road to Reynold's bridge, and the Pudding hill road to Madbury line.

District No. 19—Shall begin at the house of Joshua Trickey, thence by the house of William Twombly to Madbury line, and from said road by Richardson's Mill to the Durham road, and then from said road to the farm of E. Cate, and from said road to the Hanson shop (so called.)

District No. 20—Shall begin at the house of Robert Cristy, thence to Madbury line, by J. Cook's house, and to Madbury line by the house of J. F. Kelly, thence on cross road to the house of Wm. W. Wiggin.

District No. 21—Shall begin at the junction of the roads near the house lately owned by H. G. Otis, thence by the house of Ephraim Ham to E. Faxon's blacksmith shop, and both cross roads leading from said road across the Whittier Bridge to the railroad crossing; also the cross road to Wm. W. Wiggin's and the cross road to the Upper Factory bridge.

District No. 22—Shall begin at E. Faxon's blacksmith shop, thence by the house of John H. Lougee to Barington line, the road to Rochester line, the road to Madbury line, and cross road over the Watson Bridge to the railroad crossing.

District No. 23—Shall begin at the junction of the roads near the house of A. T. Roberts, thence by Ivory Paul's house to the junction of the roads near Samuel H. Hanson's house, and the cross road to Mrs. Pinkham's.

City Ordinance relative to the Fire Department.

Be it ordained by the City Council of the city of Dover:

SEC. 1. The Fire Department shall consist of a Chief Engineer, and two Assistant Engineers, to be denominated first and second Assistant Engineers, and as many Engine men and Hose men, not exceeding eighteen to each company, as may be necessary to work the several Steam Fire Engines owned by the city, and as many Engine men and Hose men, not exceeding forty to each company, as may be necessary to operate the several Hand Engines owned and used by the City, and a suitable number of Hook and Ladder men not exceeding forty to form one company, and a board of special Police Officers not exceeding eighty in number.

SEC. 2. The Board of Aldermen shall, in the month of March, annually appoint the Chief and Assistant Engineers, who shall hold their respective offices until their successors are appointed and qualified; and in case of a vacancy in the board of Engineers, from any cause, the Board of Aldermen shall, at once, fill such vacancy by appointment, and said engineers shall constitute the board of Engineers, and shall perform the duties and exercise the powers of firewards.

SEC. 3. The board of Engineers shall appoint from each Steam Fire Engine Company a Foreman, an Assistant Foreman, a Steam Engineer, a Steam Fireman, and Assistant Steam Fireman, and from the company attached to Steam Fire Engine No. 2, they shall appoint a Driver, who shall also be Steward for Steam Fire Engine House.

SEC. 4. The Foremen of the Steam Fire Engine Companies, under the direction of the Chief Engineer, shall at all fires determine the location of their respective Engines, and the time of working the same. They shall also have charge of the hose and hose men composing their respective companies. Each Steam Engineer shall under the direction of the board of Engineers, have the sole care of the Engine intrusted to him, he shall operate and manage the same, and from frequent minute, personal examinations, know that his engine is at all times in perfect working order, ready for immediate use; and shall be held responsible for its good condition. He shall also be held responsible for the proper performance of all the duties required of the Steam Fireman and Assistant Steam Fireman of his company, and in case of any delinquency on the part of either of them, he shall report the same to the board of Engineers. The Driver of each Steam Fire Engine shall be under the immediate direction of the Steam Engineer, when such engine is in use or is being conveyed to or from the place of use. The Steward of the Steam Fire Engine House shall, under the direction of the board of Engineers, have the care of said House, and shall at all times of day and night be at, or near the same, or furnish a substitute acceptable to the board of Engineers. He shall see that said House is

kept in a neat and orderly condition, and that the ground between the doors of the House and the street is free from snow, ice and all other obstructions in the way of the most expeditious conveyance of the engines and other fire apparatus to and from the House. He shall also see that all fire apparatus not specially in charge of the Steam Engineer is in the most efficient order and condition. He shall also be the Driver, and have charge of the horse, which shall be kept for drawing Steam Fire Engine No. 2, as hereinafter provided, and upon an alarm of fire being given, he shall instantly set fire to the fuel prepared in the fire box of said Engine No. 2, harness the horse thereto, and drive at once to a convenient place near the fire from which a supply of water can be obtained, and await the direction of the Steam Engineer.

SEC. 5. The board of Aldermen shall annually, in the month of March, appoint a board of Special Police Officers not exceeding eighty in number, to be called the *Dover Fire Guards*, whose only duty as such officers, shall be to attend, at all fires in the city, to the preservation, removal and safe keeping of personal property endangered by such fires, and to the discharge of all such police duties as may be necessary to effect such object. Said Fire Guards, at a meeting to be called by the City Clerk, immediately after their appointment, shall elect by ballot and major vote of all present, a suitable person to be recommended to the Board of Aldermen for Superintendent. The members of said Fire Guards, at all fires, shall be under the direct control of the Superintendent and such subordinate officers as may be prescribed in the By-Laws of said Fire Guards, all however being subject to the general direction of the Board of Engineers. Every thing necessarily required by said Fire Guards for the successful prosecution of their duties shall be prescribed by the Board of Aldermen and furnished at the expense of the city; but they shall receive no compensation from the city for their services.

SEC. 6. No member of the Fire Department shall hold the office of Marshal, Assistant Marshal, or Police Officer, except the members of the Special Fire Police.

SEC. 7. In case of fire, the Chief Engineer shall have the sole and absolute control and command over the Assistant Engineers, and all other officers and members of the Fire Department.

SEC. 8. In the absence of the Chief Engineer, the Assistant Engineer next in rank, who may be present, shall have all the power, and perform the duties of Chief Engineer.

SEC. 9. Each Steam Engineer, and the Foreman of each Engine and Hook and Ladder Company shall, at least once in each month, and also in addition thereto, within twenty-four hours after every fire at which the Engine, or other fire apparatus in the care of such Steam Engineer, or Foreman, shall have been operated, examine minutely and carefully such Engine and fire apparatus, and report the condition thereof to the Chief Engineer.

SEC. 10. The Chief Engineer shall cause the necessary repairs to be made on all the Engines and other Fire Apparatus, and the Reservoirs under his care belonging to the city, and shall annually in the month of February report to the City Council the condition of the same, and, also, the names of the members of each of the Engine and Hook and Ladder Companies.

SEC. 11. It shall be the duty of the members of the Fire Department, upon

an alarm of fire, to forthwith repair to their respective engines, or other fire apparatus, assist in conveying the same to the fire, place themselves under the control of the Engineer in command, and obey his orders; and upon receiving his permission, to return the engines and other fire apparatus to their appropriate places in a quiet and orderly manner.

SEC. 12. The Foreman of each Engine and Hook and Ladder Company, and the Steam Engineer of each Steam Fire Engine, on returning from every fire, shall cause the Engines and other fire apparatus intrusted to their care respectively, to be thoroughly cleaned, washed, oiled and securely housed; and at least once in each month, said Engines and other apparatus shall be thoroughly tested under the direction of the Chief Engineer.

SEC. 13. All species of gaming, or playing of games of chance, and all disorderly conduct in any Engine House or Hook and Ladder House, or any Hall or other room connected therewith, at any and all times, is expressly forbidden; and all assembling of persons on the Sabbath, in any of the said houses, halls or other rooms, except for the purpose of doing necessary work on the Engines or other fire apparatus belonging in such houses, halls, or rooms, or of conveying such Engines or other fire apparatus to a place of fire, or of returning the same to its appropriate place, is also expressly forbidden; and it shall be the duty of the Chief Engineer or the City Marshal to see that the provisions of this section are enforced.

SEC. 14. It shall be the duty of the Mayor to cause one horse and harness suitable to convey Steam Fire Engine No. 2, to be kept in the stable adjoining the Engine House on Orchard street, at all times, under the direction of the Chief Engineer, to be used only in conveying said Steam Fire Engine, or other fire apparatus, or for other necessary work connected with the same. It shall also be the duty of the Mayor to cause that one pair of horses, suitable to convey Steam Fire Engine No. 1, and a competent Driver, to be kept within the limits of Highway District No. 1. In case of an alarm of fire, said Driver, with his horses, shall be under the control of the Chief Engineer; and it shall be his duty forthwith to repair to the Steam Fire Engine House, set fire to the fuel prepared in the fire box of Steam Fire Engine No. 1, and draw the same to a convenient place near the fire from which a supply of water can be obtained, and await the direction of the Steam Engineer.

SEC. 15. If any chimney, stovepipe or flue shall be set on fire, the occupant of the building, or tenement to which such chimney, stovepipe or flue appertains, shall forfeit and pay a penalty of two dollars for each offence; provided, however, that any person may lawfully burn out, or set fire to his chimney, stovepipe or flue, any time between sunrise and noon, when the roof of his own and the neighboring houses are thoroughly wet with rain, or covered with snow or ice.

SEC. 16. It shall be the duty of the board of Engineers, to inquire for and examine into all places where shavings and other combustible materials may be collected or deposited, and to cause the same to be removed by the tenants, or occupants of such place, or at their expense, whenever in the opinion of said board, or of any committee of said board such removal may be necessary to the security of the city against fire.

SEC. 17. The board of Engineers, and the officers and members of the Fire Department, shall receive for their services, per annum, as follows: The Chief Engineer, one hundred dollars; the First and Second Assistant Engineers, forty dollars each; the Clerk of the board of Engineers, twenty-five dollars; the Foremen, Assistant Foremen and Hosemen of the Steam Fire Engine Companies, eighteen dollars each; the Steam Engineer of Steam Fire Engine No. 1, seventy-five dollars; the Steam Engineer of Steam Fire Engine No. 2, sixty dollars; the Steam Firemen of the Steam Fire Engines, forty dollars each; the Assistant Steam Firemen of the Steam Fire Engines, twenty-five dollars each; and the Foremen, Assistant Foremen and members of the Hand Engines and Hook and Ladder companies, ten dollars each. Provided, that the said sums shall not be paid to an engineer or other member of the Department, unless he shall have served at every fire during the year in the city, or shall have rendered a sufficient excuse for his absence from every such fire; and in case of such absence, each Hoseman of the Steam Fire Engine companies, and each member of the Hand Engine and Hook and Ladder companies shall render such excuse to his Foreman, who shall be the sole judge of the sufficiency of such excuse; and each Assistant Engineer, Foreman, Steam Engineer, Steam Fireman and Assistant Steam Fireman, shall render his excuse to the Chief Engineer, who shall be the sole judge of the sufficiency of such excuse. Provided, that in case any member shall cease to be an inhabitant of the city, or shall have received an honorable discharge, he shall be entitled to pay under the above conditions, in proportion to the time he shall serve.

SEC. 18. An ordinance passed Jan. 24, 1866, entitled an ordinance relative to the Fire Department, is hereby repealed. Provided, however, that this repeal shall not affect any act done or right acquired under said ordinance.

Passed March 21, 1866.

PARTICULAR NOTICE

To Persons having Claims against the City.

CITY CLERK'S OFFICE, }
City of Dover, March, 1866. }

Persons having claims against the City should carefully note the name of the individual who orders the articles, or service, and should inquire to what department the charge shall be made.

When there are charges belonging to different departments, separate bills must be made, including only charges belonging to each department. What these are, may be readily seen by reference to the foregoing accounts.

Unless this is done, the claimant will be put to the trouble of making out his account the second time.

The claimants should then have the bill approved by the person who authorized the charge; and then presented to the City Clerk.

All bills thus prepared and delivered to the Clerk, at any time *during* the month, will be laid before the Committee on Accounts at their next meeting, which is on the first Monday of each month, at 2 1-2 P. M. Bills not thus prepared and delivered will lay over one month.

JOHN B. STEVENS, JR., *City Clerk.*
